Compound Interest

Suppose a boy of 18 determines to save six dollars a week. At three per cent compound interest he will have on his twenty-fourth birthday \$2,037 of which \$165 will be interest.

The longer your savings account grows the larger it grows and the faster it grows. Is compound interest helping to make you independent?

Double your Savings. It CAN be Done.

AROUND THE TOWN

Mr. George Julien was a visitor in Calgary last week.

Miss Pearl Ruby of Calgary is visiting friends in the district.

Miss Jessie Alexander spent the week in Carstairs visiting relatives.

Mr. and Mrs. Jim Ruby who sold out their farm here a short while ago are at present residing in Calgary.

Mr. Parker Reed and Mr. Alf Stinger motored to Lake Louise this week combining a business and pleasure trip.

The Didsbury Women's Institute with all ladies of the district to take advantage of the Sewing demonstration that is to be held in Didsbury from June 4th to 8th, under their auspices. Watch next week's paper for further information, or phone 41 or 57.

Much regret is expressed in the Olds Inspectorate at Police Mr. Haverstock as Inspector. The Department of Education is trying to cut down expenses and consequently seventeen inspectors have been dismissed. Mr. Liggett is the new Inspector for the Olds Inspectorate.

The U. P. A. will hold a public meeting on Friday, June 8th, at 2 p.m. in the Opera House and to be addressed by two lecturers from the Olds Agricultural College. Subjects: "Profitable Poultry Raising" and "Rabbit Raising". Ladies especially invited.

A "Temperance Conference" of representatives from all parts of Didsbury constituency will be held in Zion Evangelical Church, Didsbury, Alta., on Tuesday afternoon, May 28th. The purpose is to organize the forces for this constituency. In the evening of the same date a public meeting will be held at the same place. Arrangements are being made for a special speaker for this meeting. Keep this date open for this first meeting of the campaign.

GEORGE S. ARMSTRONG, FORMER EDMONTON POSTMASTER.

NOW ON TRIAL.

EDMONTON, May 22.—Before Mr. Justice Shannon, the Armstrong postoffice case was resumed in the criminal court on Monday afternoon. The official charge against Mr. Armstrong reads:

"For that he the said George S. Armstrong, postmaster at Edmonton in the province of Alberta, on or about the 18th day of August, 1919, unlawfully did steal three registered post letters containing money, to wit the sum of five hundred in paper currency, from the custody of the Postmaster General of Canada, at the postoffice at Edmonton aforesaid, which said three letters were addressed to the Merchants Bank of Canada, Edmonton, and was the property of the Merchants Bank of Canada."

NOTICE

Notice is hereby given that a list of lands against which proceedings have been begun under the Tax Recovery Act, 1922, appears in the Alberta Gazette, published on the 15th day of May, 1923, and unless the amount of arrears of taxes and costs are paid on or before the 15th day of October, 1923, a certificate of title will issue to the Town of Didsbury in respect thereof.

A copy of the said list may be seen in the office of the Treasurer during office hours.

Dated at Didsbury this 21st day of May 1923.
W. A. AUSTIN, Secy. Treas.
Town of Didsbury.

Baseball Notes

Prior to the official opening of the Roschard League games, two contests between Carstairs and Didsbury have been played in home and home games. Carstairs played here on Thursday evening last and considering it was the first game of the season was a real good game. The home team were fairly well filled with fans, who took a great interest in it, and the young ladies of the town done some very effective cheering. In the early stage of the game Carstairs had a slight advantage but as soon as the home team got warmed up there was nothing to it for them and they cleaned up on the Carstairs by a score of 17-4. Pete Weber pitched the first part of the game while Ward Smith finished it. Ward's arm seems to be in excellent condition this year and with Harold Clemens back in the catchers box the Didsbury team has a strong battery. Mr. J. Gillman refereed with Doc Mulmas as base judge.

The game at Carstairs, according to reports was another real fast one in which there was a lot of real hitting done. Two home runs were knocked besides several three baggers. Lorne Gaud was responsible for one home run while Ray Powell brought one for Didsbury when he nearly knocked the cover off the ball. The game finally ended with a score of 13-12 and they were unable to play off the tie on account of darkness.

Ray made a round trip.

The Roschard League has been divided into two sections this year, comprising Innisfail, Olds and Didsbury in the northern half and Carstairs, Crossfield and Airdrie in the southern half and will much facilitate playing along this line.

The management of our team has asked that full support be given the team this year both in the way of attendance and finances. It takes money to run a ball team properly and your small contribution each game is going to help out considerably. The team is in need of new equipment, and the ballgloves, which are in fair shape, can still stand some improvement and a suit, also a cap. Aside from that, the attendance of a large crowd always means more confidence in the team and better playing results, while often a good crowd of spectators can effectively get the other team all "up in the air", so that if you wish to see the Didsbury team a winner this year you have a part to fill in it yourself. Watch for the bills advertising the games and turn out.

The junior baseball team played Carstairs here last Saturday and defeated them 8-2. The boys have a real good team this year and are playing a winning game.

WARDROP-WATERSTREET

At the Central Methodist Parsonage, Calgary, on April 12th, 1923, by Rev. R. C. Chadwick, Minister, the only daughter of Mr. and Mrs. J. Waterstreet of Big Prairie, Alta., to Percy A. Wardrop, eldest son of Mr. Andrew Wardrop of Santa, Ont.

RONAR LAW RESIGNS

Stanley Baldwin New Prime Minister

Right Hon. Andrew Bonar Law, the prime minister, sent his resignation to the king Sunday night because of ill-health; he was unable to present it personally. Thus ends the Canadian-born premier's brief, but eventful administration and it ends with important and perplexing problems, particularly Great Britain's relations with France and Russia unsettled.

Stanley Baldwin, chancellor of the exchequer, is the British prime minister in succession to Andrew Bonar Law. Having followed the constitutional practice and ascertained the views of the Conservative leaders through the medium of his secretary, Lord Stanfordham, who had been busy since Sunday in consultations, the king came to London on Tuesday and without further delay offered the premiership to Mr. Baldwin, who accepted.

TWO OF A KIND

"Don't laugh at me boy," said the sensitive mother who had teedled.
"I wasn't sir," replied his caddy.
"I was laughing at another man."
"And what's funny about him?"
"He plays golf awfully like you."

MILITARY SALE

During the remainder of this month there will be a reduction of one fourth off on all trimmed and ready to wear hats at Mrs. Peterson's Jackson Bldg.

BORN.—To Mr. and Mrs. P. E. Liesemer at their home, on Thursday, April 19th, 1923, a daughter.

BORN.—To Mr. and Mrs. R. J. Barrett, at their home here on Saturday, May 19th, 1923, a daughter.

BORN.—To Mr. and Mrs. J. Brown at their home on Sunday, May 20th, 1923, a daughter.

A National Coal Policy

In an effort to find a solution of the shortage of fuel problems which confronts Ontario and Quebec, the eyes of the people there have of late been directed towards Alberta. People in these Eastern Provinces have in the past used Pennsylvania coal almost to the exclusion of other fuels, and the first step is to educate them in the use of coal. Owing to the coal shortage last winter they were glad to get coal of any kind and many people were forced to burn soft coal for the first time, but even if it came from the United States.

Recently the Ottawa Journal and the Toronto Star brought coal from Alberta and distributed it at less than cost to a number of people in order to satisfy the East as to the quality of Western coal, and the Ontario government has followed the same course. Stern necessity some years ago led the people of Manitoba to become large consumers of Alberta coal. It improved satisfactory there and it is safe to say that Manitoba will never again import United States anthracite on the large scale that formerly prevailed. There is no reason to doubt that Alberta coal will prove equally acceptable in Ontario.

As pointed out in last week's article, the obstacle in the way of extensive use of Alberta coal in Ontario is the high cost of transportation—a rate made abnormally high by reason of the lack of return freight shipments from the East to the West, thus forcing the return of coal cars as "empty." United States coal shipments to the West have always enjoyed the advantage of being a return cargo for the lake boats which took cargoes of Western grain down the Great Lakes.

One way of solving Ontario's fuel problem through the use of Alberta coal is for the manufacturers and wholesalers of Eastern Canada to give close and scientific attention to the requirements of the West and endeavor to develop a larger trade in West and re-ship many of the United States products which even a high customs tariff fails to keep out of this country.

A further reduction in the duties imposed on British goods through an extension of the British Preferential Tariff would likewise assist in increasing the volume of freight from the East to the West, and operate to reduce the number of "empties" to be hauled.

It must be admitted that in this way alone sufficient return freight could not be developed. There would always be a large number of "empties" to be returned to the West, especially as in addition to the coal movement to the East, there is the grain movement and the shipment of cattle all in the same direction.

A reduction in the coal rate below the actual cost of haulage is the question as it would mean increasing the already heavy deficit in the operation of the National Railways. But would it not rest the Dominion Government, and prove to be sound national policy, if the Government at Ottawa undertook to defray a portion of the cost of coal transportation from the West to the East and thereby cut down the heavy drain of Canadian dollars into the United States for coal?

The use of Alberta coal in Ontario on a large scale would provide employment for thousands of men in the Alberta fields, and would result in further development there, with increased royalties to the Government. Increased demand for Alberta coal would result in the mines being operated all the year round, instead of being closed down for many months, or operated with small shifts of men. These men demand and must receive exceptionally high wages because they cannot be assured of full time employment. As a consequence the people of the West, with coal almost at their doors, are obliged to pay unreasonably high prices for coal. Steadily all the year employment for miners and maximum production would prove a blessing and an economic saving in every direction.

But, objects somebody, if the Dominion Government assumed a percentage of the carrying cost of coal it would be tantamount to subsidizing the coal industry. But if it is so doing Canada's balance of trade with the United States could be partly rectified, Canada's dollars held at home, the discount on Canada's dollars across the line reduced, Canada's natural resources developed, employment found for Canada's workers, both in the mines and in the work of transportation, and the price of coal to the residents of Canada reduced, not to mention the security in the East which an assured coal supply would bring, would it not all be well worth while and sound national policy?

If the British Government considers it wise to reduce the tax on beer, at an annual loss to the treasury of millions of sterling, on condition that the brewers reduce the selling price of beer by a penny a pint, surely the Dominion Government would be making no mistake in devoting a few millions of dollars to make Canada, with its long and severe winters, a self-contained country in the matter of an adequate fuel supply.

Coal taken from submerged vessels! The longest verse in the Bible is the ninth in the 5th chapter of Esther; the shortest verse the thirty-ninth in the 11th chapter of St. John.

"My Heart Would Palpitate, I Had Weak Spells"

Mrs. L. Whiting, 202 King St. West, Brockville, Ont., writes:—

"I took very sick with my nerves and stomach, and seemed to be all run down. At times my heart would flutter and palpitate so and I would take such weak spells in the pit of my stomach that I sometimes thought I would never get better. I had almost given up hope when a friend advised the use of Dr. Chase's Nerve Food. I did not stop until I had taken twenty-five boxes. It has done wonders for me and I want to recommend it to everyone."

DR. CHASE'S NERVE FOOD

50 Cents a box, all dealers, or Edmonson, Bates & Co., Ltd., Toronto

Coping With the Drug Habit

Lack of Public Institutions for Treating Addicts

One of the principal obstacles to successfully coping with the drug habit in Canada is the lack of public institutions for treating addicts, according to F. W. Cowan, Director of the narcotic Drug Division of the Department of Health. No such institutions exist in Canada. The present system is to send addicts to jail for a term, or to the lunatic asylum in violent cases. The provinces, however, are beginning to realize the need for separate institutions or at least wings of hospitals for treating this class of sufferers. Special organizations, as well as medical associations, are giving the matter much attention in Ontario as well as other provinces. Winnipeg, it is understood, is planning such an institution as a civic activity.

In the United States the treatment given in public institutions has proved successful.

Co-operation with the provinces as between local police and the federal police in suppressing the drug traffic is being actively fostered by the health department. Such co-operation exists between the police of Canada and that of the United States and has resulted very beneficially.

Recently a consignment of 1,200 pounds of drugs consigned to Montreal via New York was seized in transit.

If You Have Neuralgia, Rub On "Nerviline"

"Apply Nerviline to the sore spot. Notice the warm glow that spreads deeper and wider as Nerviline's soothing action penetrates the inflamed tissue. How quickly the pain is eased. In a little while you have forgotten it. The headache has actually gone. The Neuralgia, Sciatica, Rheumatism, Nerviline is a boon. Large 50c bottles. Sold everywhere.

Motor traffic is so heavy in London that roadways are now built up on concrete foundations 12 inches thick, instead of 4 inches as a few years ago.

TO AVOID PAINS OF RHEUMATISM

This Trouble is Located in the Blood,
and Relief Comes Through Better Blood

Rheumatism comes with thin, impure blood and can only be driven out of the system by scrubbing and purifying the blood.

The chief symptom of rheumatism is pain. The most distressing treatment is the one that quickly banishes this disagreeable symptom. Many thousands of people suffer pains that could be avoided by building up the blood. The value of Dr. Williams' Pink Pills in rheumatic troubles is proven by the testimony of Mrs. A. Bryson, Arthur, Ont., who says:—"I was so much up with rheumatism in my shoulders and neck that I could not turn in bed without the help of my husband, and the pain at times was almost unbearable. I took doctors' medicine which did me little or no good. Then I began taking Dr. Williams' Pink Pills and have since been free from rheumatism. I can also recommend the pills to young mothers, as in my own case I found they are invaluable. I may also add that I recommended Dr. Williams' Pink Pills to a neighbor who took fainting spells at the change of life, and who could not walk any distance. She took the pills for nearly three months and they made her a strong well woman."

You can get Dr. Williams' Pink Pills from any dealer in medicine or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Indication of Prosperity

Prairie Lead Post of Canada in Number of Motor Cars

It ownership of automobiles is an indication of prosperity, the prairie provinces are prosperous. Authen figures for 1922 show in Alberta, Saskatchewan and Manitoba a total of 181,234 of cars, trucks and motor cycles, as compared with 142,874 in 1921, while the totals for all Canada in those two years were 452,452 in 1921, and last year 610,115. Thus on the prairies are approximately one-third of all cars, trucks and trucks in the nine provinces of the Dominion. Alberta records 95,224 for last year, Saskatchewan 56,629, and British Columbia 32,721.

GOLD CHUM

The Tobacco of Quality

Canadians Use Little Cheese

Canadians stand fairly high in the list as consumers of butter, but they eat comparatively little cheese, probably not over three pounds per head per year, says Dairy Commissioner J. A. Rudolph. Some countries use three, four and five times that much. We could add to the consumption of cheese throughout Canada by more careful catering—by putting up cheese in convenient sizes and shapes and by advertising.

No need to suffer with corns, or to run the risk of hurting them. Remove them surely and painlessly with Holliday's Corn Remover.

New Building Material

Tile for Interior Work Made from Castor Beans

By a recently discovered method the residue of castor oil beans can now be converted into serviceable tiles and bricks for interior building. Fifteen hundred of thousands of tons of residue, being of no value as food stuff for cattle, had been thrown away or used as fertilizer. By a process of compression the waste is now made up into tiles which are hard, light and tough, and have the added advantage of being warm to walk on. This quality of warmth gives it pronounced superiority over stone tiling, and the cost is scarcely greater than that of stone or mineral composition tiles. In appearance the new building material resembles polished stone.

HOW'S THIS?

HALL'S CATARRH MEDICINE will do what we claim for third year system of Catarrh of bladder caused by excess. We do not recommend it for any other ailment. **HALL'S CASTORIA MEDICINE** is a liquid, taken internally and acts through the system, thus reducing the inflammation and clearing of Nature in restoring normal condition. **Castoria** free. F. J. Cheney & Co., Toledo, Ohio.

All is vanity. And any cheap car can pass the speed meter as he takes his last ride in a hearse.

You can't blame a man for bragging about his honor if he's afraid people wouldn't think it otherwise.

Meters By Millions
It has been calculated that not less than 20,000,000 meters, each large enough to be visible as a "shooting star," enter our atmosphere daily.

She Recommends Them to All Who Suffer

AND SINGS THE PRAISES OF
DODD'S KIDNEY PILLS

Quebec Lady is now Strong and Healthy, thanks to Dodd's Kidney Pills.

St. Henri, Que.—(Special). The value of Dodd's Kidney Pills is shown by the statement of Madame Roch Martel, a well-known resident here.

"After five years of suffering in my back and lower part of my body, I was obliged to take to my bed. I resolved to try Dodd's Kidney Pills. Three boxes restored me to good health. I am now quite strong and healthy and recommend them to all who suffer."

It is statements like this that have made Dodd's Kidney Pills a household remedy all over Canada.

Ninety per cent of the ills from which women suffer come from weak or diseased kidneys. They are the organs that strain all the impurities, all the seeds of disease out of the blood. If they fail in this work the impurities remain in the blood and are deposited all over the body. The results show themselves in weakness, nervousness, headaches, backaches, dizziness and rheumatism.

Dodd's Kidney Pills strike right at the seat of the trouble. They cleanse the kidneys, remove the impurities. Ask your neighbors if all these diseases cannot be avoided by using Dodd's Kidney Pills to strengthen the kidneys.

Child Workers in China

Thousands of children down to the age of eight or nine are employed in the cotton mills of Shanghai, China. Little girls stand between double rows of whirling unguarded machinery, steadily but wearily feeding the machines.

THE CANADA STARCH CO. LIMITED

Says Oriental Problem In Canada Calls For Rigid Immigration Laws

Ottawa.—The greatest ally of the Oriental in entering Canada has been the apathy of the easterners, who persistently have refrained from seriously studying the situation, and who have always looked on the appeal of the British Columbian as being of a political nature and not taken this whole matter very seriously, according to Hon. Dr. S. P. Tominie, member for Victoria in the Federal House, and a member of the Meighen Government. Dr. Tominie, in an interview with the Canadian Press, went on to say that in spite of British Columbia legislation, backed up by business organizations and various associations, the people of the coast province have been met in the east by "generalizing politicians, who have failed to give us legislation that would properly meet the situation, and no single party is more to blame than the other in this particular respect." The result had been that they had seen "horrible legislation, half-way measures, jelly fishing for fear of hurting the feelings of the Orientals, until the Chinese question, once a very simple one, is now developed into an Oriental problem that is very difficult to meet."

"I want to say that this country and its representatives must wake up if we are to preserve Canada as a white man's country to be enjoyed by future generations."

Referring to a bill which is scheduled to come before the Commons at any time now, Dr. Tominie said that "it proposes to leave wide open the entry of merchants into Canada."

"Anyone," he said, "familiar with the situation on the coast must know that we have too many Chinese merchants in this country now, and their competition is very keenly felt by those of our own race in the same line of business."

The clause covering merchants, he said, also will be a great deal of misrepresentation. "Experience of immigration agents in the past clearly shows that no boundaries should be left."

"There is only one kind of law to pass, and that is a law which means total exclusion, with the exception of permitting trade under proper regulations," he declared.

Dr. Tominie reiterated that the Asiatic is not a desirable settler, that he will not assimilate, and if Canadians are to compete with him they must entirely change their standard of living. He urges that Canada profit by the experience of the United States, where, he said, much more severe immigration laws were passed after many thousands of immigrants of a low type had gained access to that country.

Shortage Of Farm Labor

Many Workers Required by Farmers in Western Provinces

Winipeg.—While few men leaving British Columbia for any work this spring, a widespread shortage in the supply of farm labor is reported from the three prairie provinces. Two thousand workers are required by the farmers of Manitoba one day hereafter, each province has had some unfulfilled applications, while Alberta is also asking for outside assistance. The Regina, Moose Jaw and Saskatoon districts can place 200 at once, according to G. E. Tomsett, Saskatchewan Superintendent of the Employment Service of Canada, who discussed the situation here with the Dominion Western Superintendent, Major L. E. Howard. The pay offered in the applications from Regina, Moose Jaw and Saskatoon districts range from \$50 to \$55 per month, with the usual daily bonus being granted during harvest. Mr. Tomsett said that some Saskatchewan districts want farm help at wages ranging from \$30 to \$35 per month until harvest time, when the bonus will be paid.

An Excellent Fuel

Says Ontario People Fully Satisfied With Alberta Coal

Ottawa.—According to George R. Pratt, Fuel Engineer for Alberta, who is here supervising demonstrations of Alberta coal, the people of Ontario are fully satisfied that Alberta coal is an excellent fuel and would meet the requirements hitherto filled by American anthracite. He declares individuals testing the coal had reported very favorably. The difficulty at the present time was the delay of railway companies in reaching a decision as to freight rates. Speedy action was required, he said, if arrangements were to be made for shipments of coal during the summer months.

Executions in Ireland

Trillick, County Kerry.—Richard Hatfield, James McIlroy and John Graney were executed here by the Free State authorities. Hatfield, who was a deserter from a British regiment, was captured in the recent siege of a cave in which a band of irregulars were hiding out on the Kerry cliffs.

Earthquake Reported

Victoria.—An earthquake of moderate intensity with well-defined records on all instruments is reported from Gonzales observatory. The record continued for an hour. The distance from the epicenter is about one thousand miles from Victoria.

Prospective Loan For Persia

U.S. Syndicate May Help Angora Government, Says Report

London.—The loan which a United States syndicate is reported to be considering for the Persian government would, it made, take the place of that contemplated by Great Britain under the Anglo-Persian agreement which Persia failed to ratify two years ago, according to the diplomatic correspondent of the Daily Telegraph. The writer, who recently promised to have learned of the prospective loan, suggests that knowledge of these negotiations may have prompted the Turkish Nationalist Government to an inordinate substantial advance from the Chester syndicate. This request, the correspondent adds, possibly accounts for reported differences between members of the syndicate. The writer asserts that the Anglo-American loan is in a bad financial position.

Unfit to Live—Must Die

This creed is endorsed a thousand times over week—no man can live, it must pass out, drop off, if Parnassus's Extractor is applied to "turn out the old man." It never fails, 25¢ at all dealers.

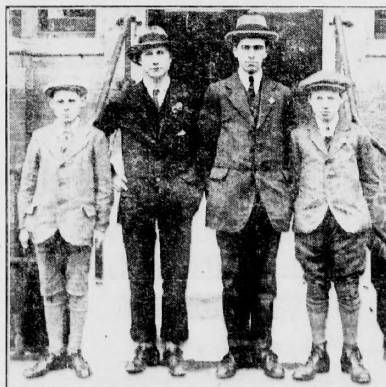

Britain Sends Largest Number of Emigrants

3,970 Came to Canada From United Kingdom in March

Ottawa.—Immigration increased 22 per cent, during March as compared with March of the previous year. Of 6,748 immigrants last month 3,570 are British and 1,661 from the United States. In March of last year immigrants totaled 5,748 of which 1,501 were British and 2,647 from the United States.

For the twelve months ending March, total immigration was 72,887—a decrease of 19 per cent in comparison with the corresponding 12 months previous.

FUTURE CANADIAN CITIZENS

These four sturdy English boys are arriving in Canada on the Montcalm to study western farming methods. In the Daily Mail competition conducted among all the Young Farmers' Clubs of the British Isles they were adjudged the winners. Mr. E. N. Beatty, President of the Canadian Pacific Railway, has given them the opportunity of visiting Canada and studying Canadian agriculture. They will spend the summer at the Agricultural College at Olds, Alberta, and return to their homes in the fall. Reading from right to left the lucky youths are: Leonard Grimmer, Clifford White, Gordon Silver and Joseph Murray.

Commission To Inquire Into Grain Trade May Consist Of Three Members

Capture U.S. Fishing Vessel

Canadian Boat Fires on American Schooner When Order to Stop Is Ignored

Ottawa.—Details of the capture of the United States fishing schooner, *Silmon*, of Seattle, were made public by the Marine Department. The statement says the fishery protection steamer *Malaspina* (Captain Newcomb), sighted the *Silmon* engaged in fishing within one mile of Solander Island, about a mile off the west coast of Vancouver Island, near Cape Cook. When no attention was paid to the *Malaspina's* three whistles, the vessel began to stop, the *Malaspina* fired three blanks across the bow of the schooner. The latter continuing, two solid shots were fired, but still no attention was paid. The captain of the *Malaspina* then halted the captain of the schooner, requesting him to stop, but he declined. Two solid shots were then fired, but missed, after which the *Malaspina* ranged alongside and demanded that the schooner stop, warning the captain that if these instructions were not obeyed, the vessel would be sunk. The schooner insisted on paying no attention to this warning, consequently no alternative was left to the captain of the *Malaspina* but to fire a rifle volley at the pilot house, resulting in one of the crew being hit in the shoulder. The schooner then stopped, and the crew brought the wounded man on board the *Malaspina*. The schooner's boat then headed for the shore. The *Malaspina* lowered a boat at once and a line was put on board the schooner when it was discovered that the crew had scuttled her before leaving.

Must Make Offer to Paris

London.—The prospect of Germany making a definite reparations offer, especially with reference to a settlement of the Ruhr situation, is widely discussed in the press. The view is generally taken that recent utterances of German statesmen and comments by German newspapers point to the likelihood that an important announcement on this subject will be forthcoming from Berlin in the near future. Opinions differ as to whether such a pronouncement would contain an outright offer in figures. It has been hinted here that Lord Curzon has suggested to Germany a sum which would be acceptable to the Allies, but the Times possesses the ability to deny this report. The newspaper also gives utterances of Allied statesmen showing that any offer or settlement in the Ruhr must be made directly to Paris and not to London or elsewhere.

Ottawa.—The commission which is to inquire into the grain trade will be appointed very shortly, and it will be smaller in its size than was originally planned. Representations have been made to the Government for the selection of a fairly large committee, representing all the interests in the grain producing and handling trades. This would have comprised about six members.

The Government has considered the matter and has come to the conclusion that a smaller commission is preferable. The commission is likely to consist of but three members and be divorced completely from the trades affected.

The chairman, it is believed, will come from Saskatchewan. Toronto.—Hon. Manning Doherty, Minister of Agriculture, read to the Legislature a telegram from the Minister of Trade and Commerce at Ottawa, stating what he was prepared to present to the Dominion Cabinet as the basis and scope of the proposed Royal Commission inquiry into the grain trade. The inquiry was to be into the grading and weighing, storing and handling of grain in and out of country elevators, and in country points and terminal elevators, either public or private, disposition of screenings and other questions incident to the selling and transportation of grain.

The words contained in the telegram from Ottawa to Mr. Doherty are to be placed as a preamble in his bill to provide for a grain inquiry, so that when the specific inquiry is over the powers granted in Mr. Doherty's bill shall lapse.

Home Work Abolished

Windsor, Ont.—Abolition of the home work system in Windsor public schools was ordered by the Board of Education after Trustee C. H. Smith attacked the system as "rural and obsolete."

Rescued From Afghans

Simla.—Molly Ellis, the 15-year-old girl, who was recently rescued from a band of Afghan tribesmen, has reached Peshawar with Sir John Maffey, Chief Commissioner of the Northwest Frontier Provinces.

U. S. Points: \$2.50 per year

WEDNESDAY, MAY 23rd, 1923

A friend at one elbow suggests that the best way to head off the mail order houses is for the local merchant to advertise liberally and get the trade themselves. It does look reasonable. All of the successful mail order houses are heavy advertisers and if they can make it pay why can't the local merchant.

We heard on the street corner the other day of a man who chimed he was too poor to take the home paper, but all the same he read a notice in one of the country papers, telling how to prevent a horse from shivering and sent \$2.00 for a receipt. When the \$2.00 worth of information came it said: "Trench your horse to split."

A second party of Swiss immigrants recently arrived at St. John's and will be going on to the north for the West, where they will engage in agriculture.

Twenty-two thousand immigrants to Canada from the United States were imported on trains and highway crossings at the 33 points from Port Arthur to Kingston, B.C., during March of this year.

To date the port of Vancouver has loaded or loaded 17,000,000 barrels of wheat to the Orient and South America. The railroads expect at least 2,500,000 additional barrels to be shipped this way in the near future.

The memory of the early missionaries of the Oblate Order will be perpetuated by the Canadian Pacific Railway, and several stations on the extensions of their lines between Kijawa and Quince will bear names of early members of that organization which did so much for the colonization of the country.

There are thirteen new paper making machines being installed in Canadian paper mills this year. When erected and running full these machines will consume more than 350,000 additional cords of wood a year. Canada is already annually consuming and exporting more than 5,000,000 cords of pulpwood, representing the growth of a century or more on 1,500,000 acres of land.

A new service for motor tourists desiring to pass between the mainland and Vancouver Island has been inaugurated between (Bellingham and Victoria). The Motor Princess, with a capacity for fifty automobiles and 250 passengers, plies twice daily between the ports. This boat is motor driven and the first of its kind to be operated on the Pacific side of the continent.

In 1922 Canada produced 2,418 tons of salt cake, valued at \$44,804, and 1,320 tons of Glauber salt, valued at \$42,719, according to government figures. There are a number of immense deposits of Glauber salt in the province of Saskatchewan, which are at the present time only in the initial stages of development, but it is anticipated that the next few years will see a considerable increase in production.

The Canadian exhibit at the British Empire Exhibition, to be held in London from April 20th to October 31st, 1924, is to be financed, controlled and directed by the Federal Government. The estimated cost is \$1,000,000. The two Canadian railroads are planning exhibits on adjoining sites with a floor space of 10,000 feet. The cost of the Canadian Pacific exhibit is estimated at \$300,000.

The Canadian Pacific steamer "Empress of Japan," upon her last sailing, carried a shipment of Canadian frogs for Japan. Cool space was reserved in the hold of the liner and the travellers were well packed in ice. On being taken ashore at Yokohama these frogs will be gradually warmed until they are ready to be let loose, when they will be liberated on the towns of Japanese farmers, with the idea of giving the Japanese a new industry in the production of frogs legs.

The Canadian Pacific Telegraphs have announced the following reduced rates per word for cable messages to the following countries effective to-day:—Australia, 30 cents; Belgium, 25 cents; France, 22 cents; Germany, 25 cents; Great Britain and Ireland, 20 cents; Greece, 35 cents; Hungary, 30 cents; Italy, 26 cents; Japan, 30 cents; Switzerland, 22 cents. The 25 cent per word rate to Great Britain and Ireland is still in effect for special rush cables. Corresponding reductions have been made in our rates to our countries in Europe and beyond via Atlantic cables, and the low deferred rates will be operative if the full rates quoted above should be in effect. The existing deferred rate of 8 cents per word is unaltered.

CANADIAN PACIFIC

General Change

IN TRAIN SERVICE

Effective Sunday, May 20th

Times for Trains at Didsbury will be:

FIRST WOMAN GRADUATE IN AGRICULTURE

The first woman graduate in Agriculture from the University of Alberta was given her degree this week. She is Miss Sheila Mary, sister of Hon. Mrs. Parly, and lives at Alib, Alberta. For two years Miss Mary was a student at Olds Agricultural School, and previously had taken a short course at Guelph, Ont. She has just completed a three year course at Alberta University.

Railway News

Toronto.—It is announced that Mr. G. S. Beer, C. P. R. city passenger agent, under District Passenger Agent William Fulton, has been promoted to the post of assistant district passenger agent. Mr. Fulton now has two assistants in his territory.

Medicine Hat, Alberta.—An expenditure of about \$50,000 is represented by the extension of the Canadian Pacific Railway roundhouse and the construction of the company's mechanical building plant, and that sum is about equally divided between the two improvements. In both instances the work has given much employment to local men and there is still a considerable amount of work to be done in connection with the extension to the roundhouse.

Regina, Ontario.—Mr. Ed. Williams, Canadian Pacific Railway baggage master, who is in addition to his regular duties, takes care of the flower garden which attracts as much favorable comment from travelers over the line, has secured another triumph. Mr. Williams has just been notified that his plot has been awarded second prize in the Quebec district, all of the depot gardens having been recently judged by an official of the road. During the past few years Mr. Williams has carried off a number of first prizes but the competition is growing keener year by year.

St. Thomas, Ontario.—Work has been commenced on the construction of an extension to the present C.P.R. yards east of the city, in the form of a 50-foot repair track at an expenditure of approximately \$15,000. The grading work which is being done by Irwin and Son of this city, was started recently. The extension is necessary to cope with the increased business and also to facilitate the repairing of cars. It is also understood that the addition of the new tracks will result in several more employees being added to the C.P.R. repair gang.

A small track about 80 feet long will also be erected alongside the new tracks to be used in case of an emergency. The new track will hold at least forty cars. Four teams and about twenty men are engaged in running this work to completion.

Belfast, Ireland.—For the first time on record a Canadian-bound steamer sailed from Belfast Lough conveying mails direct from the Northern capital. The vessel was the Canadian Pacific Railway Company's S.S. "Metagama," which, incidentally, was built in Belfast. The vessel anchored off Killybegs and 22 bags of mail, together with some 100 emigrants from Ulster, were conveyed to it by the Harbor Commission tug "Magrave."

Hitherto it had been the practice to send the mails to Liverpool and other ports, from which they were despatched, but, acting on instructions from the secretary of the Post Office in London, the present system was introduced.

One of the passengers was a five-year-old child from Dublin, whose parents are in Canada. The little one was in charge of a matron who handed it over to the matron of the "Metagama."

A Belfast "Telegraph" representative was shown over the "Metagama" and saw something of the excellent arrangements made for the comfort of passengers.

London, England.—Major A. E. W. Moore, London Manager of the C.P.R. Department of Colonization and Development, G.C.B., Chartered, has received the following letter from their Brussels office: "Dear Sir,—I beg to advise that a certain Mr. Martin Avenue des Courses, Bruxelles, who has formerly resided in Canada, brought over by our line in April of this year a shipment of Canadian potatoes. They were planted soon after arrival at Belgium, a variety of Brussels, where an exhibition of food products was held on Sunday last. A certain Mr. Lemmens planted 2 1/2 acres with Mountain Green and Irish Cobblers. His crop amounted to 100,000 lbs., one plant bore 9 lbs. 2 ozs., one potato weighing well over 2 lbs. This particular plant has been lent to us for window display and has attracted a great deal of attention. Mr. Martin has 10,000 kilos of Canadian potatoes in Belgium, which are not to be sold for immediate consumption but only for reproduction.—Yours very truly,

(Signed) C. DE MEY, Agent."

THRILLING SCENES IN "TO HAVE AND TO HOLD"

Plumes being thrown ahead from towering decks; sword-fights while cannon boom, and a thrilling scene for life 150 feet across and over the deck of a rakish corsair craft—such are the thrill features of George Fitzmaurice's new Paramount picture production of "To Have and to Hold," with Betty Compson and Bert Lytell in the feature leads, aided by Theodore Kosloff and W. J. Ferguson in strong roles.

The pirate incidents were taken in the ocean off Balboa, Calif., aboard the old South Sea trading schooner, "William G. Irwin," specially rebuilt for pirate purposes. A hundred tough looking pirates with swords, pistols, bandannas and all the other marks of their calling, form a vivid background against which the principals play out their thrilling parts. Mr. Fitzmaurice devoted much time to the closing scenes in the luxurious banquet room of the court of King James I of England. This sequence with its wealth of gorgeous seventeenth century costumes, particularly those worn by Miss Compson and Mr. Kosloff, is said to provide a strongly contrasting note to the color of the pirate scenes. In this banquet scene appears "in person" such notables as William Spackman, Ben Johnson and the Duke of Bucklegham.

Gilda Bergerre adapted "To Have and to Hold" from the famous romantic novel by Mary Johnston which was a best seller some years ago. The picture will be shown here on June 1st and 2nd. It should prove a good drawing card.

ATTRACTING TOURISTS AND SETTLERS

Alberta will be officially represented during the next two weeks, on the tour that is being made of the larger centres on the international highway through the Western States, by Colin G. Groff, Provincial Publicity Commissioner. This tour is for the purpose of bringing attention to the Alberta loop of the international highway, with the object of attracting to the Province a large proportion of the immense tourist traffic that passes over the great highway. This highway has for its southern bases the Grand Canyon and Los Angeles, with Edmonton and Calgary and Banff as its northern bases. The opening of the new Banff-Windermere road this summer makes it possible for tourists to make the complete 4000 mile circle by auto. During the trip a great deal of publicity material on the province in general will be distributed, since the states to be visited are also fertile fields for good settlers, particularly for the irrigated sections.

MENTAL HOSPITAL OPEN NEXT FALL

The opening of the Mental Hospital at Oliver, now nearing completion will be postponed until next fall, as a measure of economy. It is planned to remove the mental patients at Red Deer hospital to the new wing now completed at Ponoka, where they will be cared for until the Oliver Home is opened. This arrangement will effect a considerable economy. The Red Deer Home is to be used for mental defectives.

IMPROVING HIGHWAYS

The Public Works Department is undertaking the reconditioning of a large portion of the highway from Calgary to the border, preparatory to the coming tourist traffic from the States this summer.

TELEPHONE CONVENTION

The third annual convention of Canadian telephone men will be held in Edmonton in August. R. B. Baxter, Superintendent of the Alberta Government System, being the President of the association. Delegates from all over Canada, as well as some from the mountain states will be present.

SHEEP TRAILING

Owners of sheep herds are warned that those wishing to trail sheep from one part of the province to the other must obtain permission of the Livestock Commissioner at Edmonton, before doing so.

IN MEMORIAM

Written in memory of John S. Finley.

God called him and he heard the call,
The light of our life seemed for a moment to flicker and wane,
And when in peace he crossed the Great Divide,
Twas those he left behind that wept and felt the pain.

A life of service—one of Christ's own soldiers fast,
He passed beyond to know the higher things of Life Divine;
And there with Christ he waits and watches now,
And we shall know him, marked with Christ's own sign.

Sometimes it seems that things have been misplanned,
That destiny has moved the hands of Fate and marred the course,
But God's own purpose, adequately fulfilled,
Guides, comforts, and reveals that perfect Force.

He is gone before, and those who love,
Wait, with God's blessing, until He does call,
And then in joy and peace above,
Heaven shall decree and re-unite us all.

Written by a friend.

YOU GET THE AMOUNT OF THAT CHEQUE

We have made arrangements with the P. H. Board of Limited who publish the C. H. Hill & Co. Ltd. cheque and are able to give that price, without cost, to you for your own use at the time you get your cheque.

SPRINGSIDE

We notice the farmers of the Springside district are wearing smiles about a mile long these days. I guess it's due to the frequent showers we have been having within the past few weeks.

Miss Rosanna Boutin was the guest of Miss Winnie Arlendsen over the week end.

Cheer up John! All the fish in the sea haven't been caught yet.

Mr. Olaf Sande has returned from High River district where he has been working for the past few months. Seems like there is nothing equal Springside for they all come back.

Mr. A. Kershaw has purchased a new Overland car. Look out for the dust flying now.

Mr. Erven Rodney has returned from Calgary where he has been undergoing an operation for appendicitis. We are glad to hear he is getting along fine.

When Tom goes north Bill goes the opposite way. There is nothing like reversible fish play.

Cheer up Lizzie! Co. will be back in the fall.

PARTY OF DUTCH SETTLERS

A small party of Dutch settlers reached the province this week, and will be located for a time at Strathmore, with the C. P. R.

HOMESTEADS FILED ON

Since the first of the year a total of 58,000 acres in homestead land has been filed upon at the Dominion Land Office in Edmonton, indicating a considerably greater movement into the province than has been the case for some time.

VISITED HEBRIDESANS

Hon. George Hoadley, Minister of Agriculture, paid an official visit to the colony of settlers from the Hebrides, who arrived at Red Deer last week. Mr. Hoadley extended the newcomers a welcome on behalf of the Provincial Government, and placed at their disposal the advice of the experts of his department in assisting them to adapt themselves to farming in the new land. There are between 50 and 60 families in the colony. Mr. Hoadley, in conversation with the leaders, emphasized his opinion that an endeavor should be made to obtain a block of homestead land sufficient to establish the entire colony, so that none of the money

from their slender resources should have to be paid out as purchase price for land, but rather using it in the purchase of stock and equipment, which was now reasonably priced in the province. Mr. Hoadley also dwelt upon another feature of the situation with respect to the colony and that was the development of the manufacture of homespun, or Harris tweed, for which the Hebride islanders are so famous. The colonists

W. J. Hillyard

FROM HARD TIMES TO CANADA

By the plans lament? Mirrored aboard the tender of the WHEN the Canadian Pacific steamships "Marloch" and "Metagama" last docked at St. John, Canada gained to the extent of over six hundred able-bodied and industrious farmers, farm workers and women from the Hebrides. Forced by the loss of their fishing trade through the war and German competition, and by general hard times to leave their thatched homes, these people have come to a land of promise and have been welcomed as the most valuable immigrants in years. Under the leadership of Rev. Alexander J. Gillies and Rev. John Macmillan, they have gone to the Red Deer district of Alberta and to various parts of Ontario, where they will engage in agriculture.

Most of them are from the island of South Uist, Benbecular and Barra. Here their families worked small farms of from ten to twenty acres and kept a stock of from two to eight cattle and ten sheep on common pastures. In the spring they gathered seaweed for fertilizer, planted oats, barley, rye and potatoes, and when this was done took to the sea,

some to engage in fishing, which brought but small monetary return, and others to join the merchant marine. In the fall those who were near returned home, harvested the small crop and thatched their houses. But there was not work for all. It was of no use to fish when there was no market and one man could do the work of the farm which produced but little. The wolf was at every door, almost, and the emigration officer received more applications for information and later assistance than he could comfortably handle.

These people having arrived and received welcome have already buckled down to work. Their losses at home have contributed to Canada's gain. A large party have gone to Red Deer where they will build their own church and school, and in addition to English they will retain their own native Gaelic tongue. The remainder of the immigrants have been split up as hired men in various parts of Ontario. Over four hundred were passengers on the "Marloch," the rest on the "Metagama."
